ROSE VALLEY WATER TREATMENT PLANT UPDATE

Council has endorsed a Subject to Petition Against process for the Rose Valley Water Treatment Plant Local Area Service (RVWTP LAS) and long-term borrowing of up to \$23.5 million for the plant's design, construction and financing.

This process establishes the new LAS that includes the water service areas of Pritchard, Lakeview (local Rose Valley), Sunnyside and West Kelowna Estates. The process will inform Council if there is sufficient petition against long term borrowing from future RVWTP property owners. This method would require at least 50 per cent of all property owners in the LAS representing at least 50 per cent of the property value in the service area to sign and submit written Petition Against Forms to the City within a 30-day period. This process is anticipated to occur in August/September and RVWTP LAS owners are asked to watch for the package in the mail.

The high-capacity RVWTP will enable the City, as a water service provider, to meet the needs of the growing West Kelowna community for generations to come without high short-term borrowing costs. More details are available online at westkelownacity.ca/rvwtp.

STAY UP TO DATE ON CITY NEWS AND ALERTS

Our city e-News has a new look!

We have changed our e-subscription provider. With this change, subscribers of the City of West Kelowna's e-Updates may now receive photos, videos, polls and other content. We have also added new subscription categories, including major capital initiatives such as Glenrosa/McIver Upgrades and the Rose Valley Water Treatment Plant.

If you are already subscribed with us, then great, the updates have already been rolled out to you. If you would like to be added to our service, please visit westkelownacity.ca/subscribe and select News and Alerts to receive all our news, or select specific categories from the list to choose the types of updates you wish to receive.
