Re: Old Okanagan Highway Active Transportation Improvements

Dear Home Owner/Occupant:

The City of West Kelowna is contacting you to provide advance notice of active transportation upgrades coming to your neighbourhood.

Construction of a new sidewalk and bike lanes on Old Okanagan Highway is scheduled to begin the week of **July 3, 2023**. Once the project is complete this fall, the community will have access to 300 metres of new sidewalks and bike lanes from Dobbin Road to Ingram Road.

As part of this project, crews will complete the following work along Old Okanagan Highway:

- Construction of concrete sidewalks along the east side from Dobbin Road to Ingram Road
- Construction of asphalt bike lanes along both sides from Dobbin Road to Ingram Road
- Installation of new streetlighting
- Stormwater improvements

What to expect during construction

Construction will occur weekdays from 7:00 a.m. to 4:00 p.m. with the possibility of some weekend work. Residents can expect construction-related noise, vibration and dust while the work is being performed, as well as traffic related delays including temporary lane or road closures and street parking restrictions. Traffic control flaggers will be on site to safely direct vehicles and pedestrians through the work zone when necessary. We anticipate construction to take approximately 8 weeks to complete, with road markings and signage installation to follow. The construction schedule is subject to weather, contractor timelines and other factors.

Certain properties will have driveway access limitations while the road is being widened. Crews will work with the residents of these properties in advance and during construction to help minimize disruptions.

Please note that any existing vegetation and/or landscaping which is currently located along the boulevard area may potentially be removed by the construction crew as necessary to construct the works. If you wish to save any landscaping located within the road right-of-way, please ensure this is completed prior to the work occurring.

We appreciate your patience and understanding as we complete these necessary upgrades. If you have any questions regarding this project, please contact me directly.

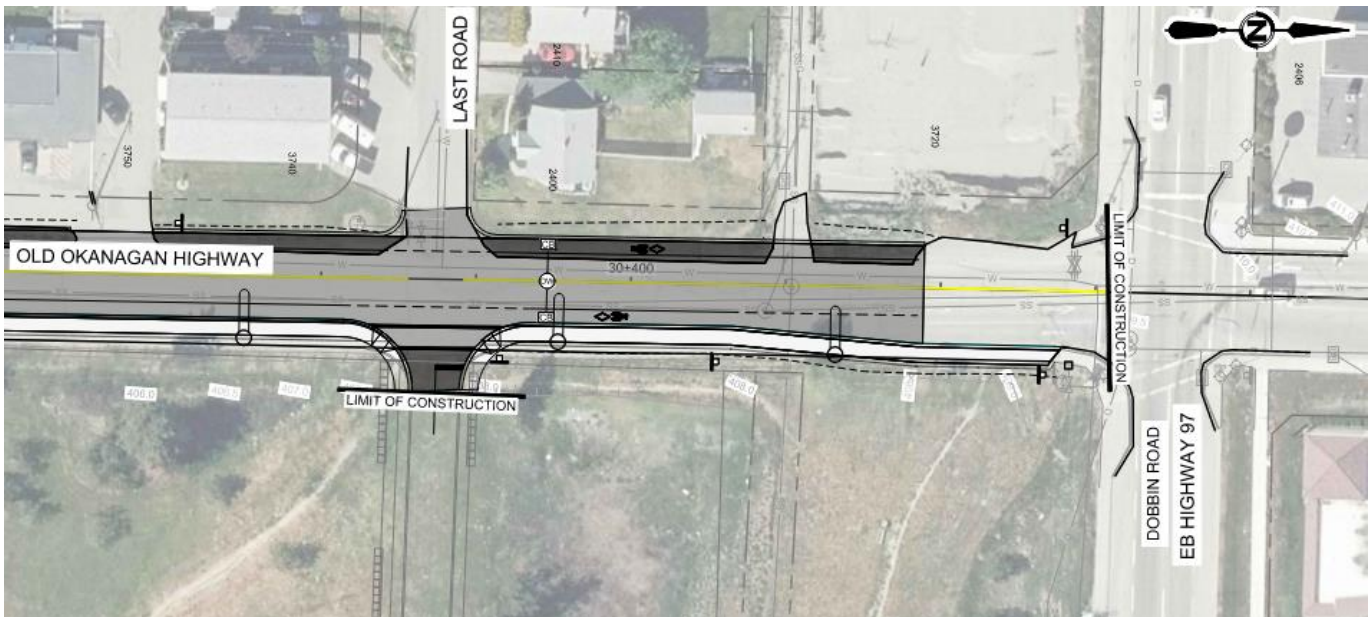

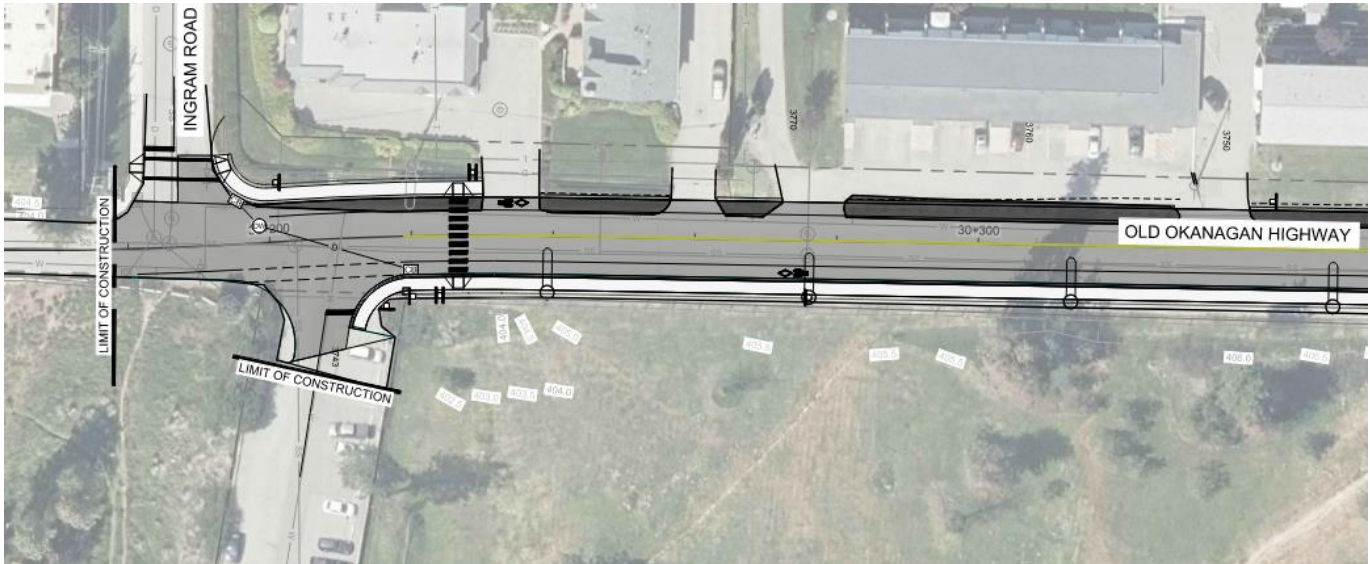

Regards,

Jordan Finkel
