GLENROSA ROAD UPGRADE PROJECT UPDATE

AUGUST 2020

This project update is being sent as we move into the latest stage of construction. It includes detailed information about the traffic management plan and the new detour needed for the project.

Stage 2 detours start September 8

Crews will reopen the lower portion of Glenrosa Road and a new detour route will be put in effect.

Key features of the upcoming closure and detour include:

- Closure of Glenrosa Road from McIver Road to McGinnis Road until approximately mid-November.
- Rerouting access to the north side of Glenrosa Road through McGinnis-McQueen-McIver Roads.
- Stage 2 work includes arterial road upgrades, safety improvements like sidewalks, curb and gutter work and paving.
- Possible periods of single-lane alternating traffic along McGinnis Road as crews complete work.
- Glenrosa Road will remain open after hours, however will be quite narrow in some areas and may require vehicles to yield to oncoming traffic.
- Crews will continue to work along the lower reopened section of Glenrosa Road completing landscaping and remediation work.
- Changing bus stop locations, see: www.bctransit.com/kelowna/schedules-and-maps.
- Reopening the road in the event emergency evacuation is required.
- Maintaining access for local traffic only. Providing safe passage for pedestrians.
- Reducing speed limits to 30 km/hour on detour routes.

Please see the map on the back of this update for more details.

Allow more travel time for work and those getting ready to go back to school

This road closure may disrupt people's daily routines and will extend commuting times. We encourage drivers to allow extra travel time and to respect the speed limits for the safety of the neighbourhoods.

For those with children getting ready to head back to school, we encourage planning ahead and utilization of active transportation options to limit the amount of vehicle coming into the Glenrosa/McIver area and to keep kids safe around construction zones. Visit smartrtrips.ca for safety tips for pedestrians and motorists.

Future stages of construction

Crews have divided construction into three separate stages that allows closed sections to re-open after completion of each stage. We are currently in Stage 2. The City will post details on future stages on the project webpage once determined and communicate out this information to residents. Remaining work including further sidewalk installation will be completed during the 2021 construction season. Complete maps and details are available at westkelownacity.ca/glenrosamciverupgrades.
